

PalCONN introduces Super Speed USB 3.0 Connector

July 15, 2010- PalCONN, the Interconnect Division of PalPilot has introduced USB-CAD00937LG, an USB 3.0 compliant, Type A, Female, 09 pin, Vertical, PCB mount connector.

Designed to operate at ten times the speed of USB 2.0, USB 3.0 operates at a rate of 4.8Gbit/s. Mechanically, the USB 3.0 connector has been designed with backward compatibility to the USB 2.0/USB 1.1 connector, and includes new wiring, plus full duplex communications. Super Speed is designed with an emphasis on storage applications.

For standard product details, please refer to our online datasheet: [USB-CAD00937LG](#)

For sample request, product inquiries, contact sales at 714- 460-0718, or 408-855-8866 or email: palconnsales@palpilot.com

About PalCONN:

As part of the Palpilot global supply chain family, PalCONN delivers world class connector products with an unsurpassed combination of superior quality and lowest possible cost.

PalCONN products are supported in North America through our dedicated sales, service and technical support staff. Our products are manufactured at our five Far East factories and delivered world-wide with factory direct pricing.

PalCONN products are manufactured to be fully RoHS compliant with worldwide efforts for the eliminations of hazardous materials and are fully tested and recognized by UL and CSA. Our facilities are ISO9001 certified, and ISO/TS16949 registered.

We invite you to browse the PalCONN website for more information including our product catalog, product briefs, and technical specifications.
